

# Elementary Report Card Committee

## AGENDA

- Review changes in the NJSLS standards: ELA and Math
- Compare the new standards with the current report card.
- Note changes needed and make adjustments.
- Analyze the pacing of Eureka2 against the current marking period reporting of the standards and make adjustments. Conquer/Eureka Math Binders were used.

# Where does our work still need to go?

- Revisit the pacing and shading for Math after Year Two of Eureka for accuracy and alignment
- Analyze the pacing and standard for Wonders after Year One for fine tuning of shading per grade level

## **Rationale**

Apshawa, having several transitions over the past few years and new students due to the redistricting, valued the time to analyze and revise its character initiatives and their effectiveness.

## **Meetings**

The team met three times and plan to continue their work as a committee throughout the year. They will turnkey their work with our staff

# Final Product

The Apshawa Committee reviewed the current pillars of character and their alignment with initiatives that are ongoing in session one. Sessions two and three plans were developed for moving forward with initiatives in the 24-25 school year. Branding, further alignment and partnership with the new PTA, and coordination of Second Step themes with our Character Initiative were pulled together to begin the year and set the tone for the kick off to the school year.
